*"This course is incredibly valuable for those who want to incorporate music into caregiving and senior care. It is informative, engaging and is filled with meaningful content. The course gives thoughtful, practical and easy to follow ideas for bringing music into various health settings."*

~Molly Carpenter, Gerontologist and Recreation Therapist.

## About this Course

Developed by Dr. Concetta Tomaino and the IMNF team, and inspired by the book *Music Has Power® in Senior Wellness and Healthcare*, this on-demand certification series bridges the gap between music therapy and everyday care, empowering practitioners with the knowledge, skills, and resources needed to harness the therapeutic power of music effectively. Consisting of nine in-depth learning modules, the course is designed to provide a deep understanding of music therapy principles, interventions, and applications across different healthcare settings:

**Module 1:** What is Music Therapy?

**Module 2:** An Introduction to Music Interventions: The Therapeutic Drumming Circle

**Module 3:** Bringing Music Therapy Best Practices to Your Organization

**Module 4:** Music for Mental Health and Wellness

**Module 5:** Music for People Living with Dementia

**Module 6:** Music for Everyday Care of People with Dementia, and Others

**Module 7:** Music Therapy and Movement Rehabilitation

**Module 8:** Music Therapy and Speech Rehabilitation

**Module 9:** Technology and Virtual Programming: Expanding Access to Music Therapy and Music Programming
